Membership

Firstly, we arrange on your behalf, a discreet, confidential interview to discuss the benefits of belonging to the base club for your age group: **Xposé 30 - 45yrs** **Bonjour 45 - 65yrs** **Golden Years 65 plus**

We carefully learn what it is you are looking for in a potential partner. We discuss what has worked for you in the past (and what hasn't) what your interests are, and the type of events that best suit your personality and social comfort. A schedule of events is given at this meeting for the current month's engagements.

Your membership is required to be paid at this point. Membership fee is \$120 for 6 months memberships. Rejoining with a consecutive 6 month membership, a reduced fee of \$100 will be offered if membership is paid prior to the renewal date? Membership monies are not refundable however, if full membership is not used it can be placed on hold.

Once you have joined, we invite you to attend our next events, buddies are available to assist you on your first night.

Club Evolution Enhancement

As a valued member of **Club Evolution** you may attend any of the scheduled events, also events are arranged with specially selected, matching like minded members through cafe meets and dine outs.

Club Evolution - How are clients matched?

During your time as a member of **Club Evolution** we will match you with other club clients in your specific age group, through café meets or dine outs for two or up to 6 which ever is the most non-threatening for you. A person is selected for you based upon the information we discuss in the interview and you're 'Personality DNA'. Our event managers have experience in creating matches based on personality, personal style and individual preferences.

Our service isn't about video or computer dating; it's about an insightful, professional **Club Evolution** staff member processing your desires, goals and motivations combined with our knowledge and instincts. This information is processed through a combination of hand-selections and our personal dynamic selector programme creatively culminating in appropriate matches.

'One on One' - How is the date arranged?

If a one on one date experience is offered, we will do this only if we are confident about the selection. Once we select a match for you, we contact you by phone to tell you about the person we have chosen. We respect your confidentiality and only give out your first name, never revealing your address, phone number or company name. We give you a concise description of your potential date and why we think this match is appropriate. Everything we know about you is taken into consideration for this process. 'One on One' matching - there is a charge for this service; it is your selection fee and booking fee, currently at \$50 per client. Added extras' can be arranged i.e. flowers, table decor, limousine etc (prices are passed on to the client requesting these services at cost).

How and where do I meet my date?

The only work you need to do is to show up at the café or restaurant and enjoy the date. We handle every step. If your schedule makes meeting difficult, we can arrange for a drink after work. Our goals are that the match is well-suited and the time and place are convenient for both of you. We like to create an environment that makes getting to know the other person as natural (and fun!) as possible.

A meet and greet service is available to assist with introductions in the early part of the evening. An additional \$15 hospitality fee per client is applicable for this option.

What happens next?

Actually, many of our first dates turn into second dates! At the end of the date, you can exchange business cards or phone numbers and make plans to get together again. Following each date, we ask that you call us with feedback. From your comments and overall impression of the person, we will endeavour to fine tune your next match so that we can be even more precise in the future.

You really have nothing to lose... except for your single life!
